

SANNIHITA RAINBOW HOME - PARKLANE MANAGEMENT LETTER

Dear Friends,

Warm greetings from Sannihita!

Sannihita Centre for women and Girl Children Society has always been on the track to uplift the lives girl children and women who needed care and education to be able to sustain in the society. Through its activities, Sannihita is creating much needed awareness among these sections towards bettering their lives and life styles.

Rainbow Homes

Sannihita, through its rainbow homes, never failed in providing them good care by way of good food, education and care. Special care is taken to identify the strengths of children individually and sharpen their talents as well as to nullify their weaknesses, if any, by guidance and counselling. Sannihita always tried to establish the qualities of self-respect, social consciousness, spirit of defending the rights and social responsibility in the children to make them better civilians and creating awareness on various social issues.

Achievements

Sannihita is happy to announce that its students had shown good achievements during the period. Komala and Ramani, both students of 8th class English medium got merit certificate at school and were awarded with cash prize of Rs.500/- each. Also, Gayathri, studying 7th class got first prize in drawing competition conducted by Yashoda foundation and received cash prize of Rs. 750/-.

Poojasri successfully completed her SSC board examination with 50% marks whereas Ramadevi completed her MPHWS (Multi-purpose Health Worker) course with 75%. Lalitha appeared 10th (Open school) with three subjects remaining.

One of our home girl, Yellamma, who unwillingly joined KGBV with the pressure from the Home team, is now regarded as brilliant student among her class is very happy for the decision.

Health

Indumathi, fractured her right leg by falling down from a two wheeler, has to undergo treatment for three months. Now she improved and is able to walk slowly without any external help.

Issues

The major issue at home is with the adolescent children as they annoy the team with their defiance. Most of them wouldn't show interest in going to school or to care the teachers and other inmates. It seems they need psychological counselling which the Sannihita HO is trying to provide.

Challenges like this are part of the process and they may disturb but cannot deter the spirit. At Sannihita, the team is always strive to provide the children and society with best services they can offer. They learn, they improve and they implement and it's a continuous and evolving process.

Campaigns organised, conducted and participated by team members and other partners kept the children engaged completely and it was a good feeling.

We thank one and all for their support and expect the same cooperation from you for our future endeavours too.

Thanking you

Sincerely,

Team of Sannihita Rainbow Home
